

**CITY OF SAN DIEGO
OFFICE OF COUNCIL PRESIDENT PRO TEM ANTHONY YOUNG**

WEEKLY UPDATE MARCH 15, 2006

The City Council is in recess this week.

The Union Tribune had several stories this week about the City's real estate holdings and how they are being managed. I applaud Mayor Sanders for continuing the efforts the Council started in May of 2005 when the City Council unanimously supported my directions to then City Manager Lamont Ewell to address the City's problems with real estate and the Real Estate Assets Department in a comprehensive and strategic manner.

As I stated to the Council in May "The strategy I propose involves our ability to manage city-owned properties as both responsible caretakers and pro-active managers. This strategy involves us managing the public's properties like an efficient and effective first class real estate business that has as its mission, delivering the best value possible to the public and in the process enhancing the quality of life for all city residents. This strategy involves not having low value uses on high value properties. This strategy involves using our public assets to generate funding for public safety, libraries, parks, affordable housing, employment opportunities, quality commercial developments, and expanding the opportunities for all city residents." The Mayor's appointment of Jim Waring to manage and provide direction to the Real Estate Assets Department is commendable. I was particularly pleased to hear that "his goal is to create a city real estate department that is as aggressive as a private firm." I look forward to continuing to work with the Mayor, Jim Waring and the City Council on this issue.

On Tuesday, March 21, 2006 at 10:00 am, the City Council will be considering my proposal to establish a Commission on Gang Prevention and Intervention. The Commission will be an official advisory body to the Mayor and City Council. Its goals and mission will be to develop a strategic, coordinated, and collaborative effort between the Community, City, law enforcement agencies, educational community, faith-based

community, social service providers, and the business community to address gang prevention and intervention.

Its main objective will be to significantly reduce gang involvement, and its negative impacts on children, families, the community and the City of San Diego. It will take a multi-pronged approach to accomplish this goal and I look forward to your support in helping the City and Commission achieve it.

This free event titled "Smart Money Summit and Expo is for those living in low to high budget households. It will provide an opportunity to learn about the many financial programs, services and opportunities that are available. Most importantly, it is designed to help educate San Diego about the importance of being financially literate.
